Steady as she goes

Murdoch MacKay Collegiate students Brendan Ramsay, front, and Warren Hendry, rear, paddle their boat and dingy in the 3rd Annual Cardboard Boat Race. Eighteen teams of four high school students from across the province took part in building boats of cardboard and duct tape, and contact cement. Two members of the team will paddle the boats in a race at the pool at 17 Wing Recreation Complex (two others will be used in the weigh capacity of the competition). The race is sponsored by Skills Canada Manitoba to introduce students to careers in skilled trades.
