

# NORTHERN MANITOBA SKILLS CHALLENGE 2018

**University College of the North  
February 28, 2018 —The Pas**

## Why a Skills Challenge?

The Skills Competitions provide the much needed awareness of Canada's skilled workforce shortage. In report, *Toward a Bright Future: Recommendations for Addressing Skills Shortages in Western Canada*, Todd Hirsch (Chief Economist of the Canadian West Foundation), says **73 of the 76 major industry associations in the west expect moderate to severe worker shortage within the next five years. 41 of those associations said the number of students currently graduating from post secondary institutions will not be enough to meet the demands of their industries.** Many students, educators and parents are uninformed of the merits of post secondary training in trades and technology (good pay, job security and flexibility) and the skills competition is an excellent venue to overcome these misconceptions.
